## ***SOUTHWEST ADVANCED CLEANING SERVICES, LLC*** **CLEANING METHOD**

1. **SOUTHWEST ADVANCED CLEANING SERVICES, LLC** will start with a check-in list (electrical, fan condition, floors, hood, hood lights, etc.) This will be done with your manager on duty.
2. **SOUTHWEST ADVANCED CLEANING SERVICES, LLC** will partially disassemble the fan and spray with approved degreasers and allow to soak. To loosen grease, we will then spray the same degreasers down the duct work and on the roof around the fan area.
3. **SOUTHWEST ADVANCED CLEANING SERVICES, LLC** will use high pressure water to clean the fan and duct work to clean metal. Clean metal insures safe operation as opposed to powders that only cover grease.
4. **SOUTHWEST ADVANCED CLEANING SERVICES, LLC** will clean the surrounding roof area. We do not leave a mess for your employees to clean up.
5. **SOUTHWEST ADVANCED CLEANING SERVICES, LLC** will then spray our degreasers on the inside of the hood and up into duct. Hot water is used to extract grease into a receptacle or is picked up by our Wet-Vac, then mopped.
6. **SOUTHWEST ADVANCED CLEANING SERVICES, LLC** will check to make sure all pilot lights are relit after the job is completed.
7. **SOUTHWEST ADVANCED CLEANING SERVICES, LLC** is fully insured against damage due to our error.
8. **SOUTHWEST ADVANCED CLEANING SERVICES, LLC** is a top quality cleaning service and should not be confused with cosmetic hand washing or inferior powder cover-ups. As successful as your business is you know that quality is always the best method.
9. **SOUTHWEST ADVANCED CLEANING SERVICES, LLC** will not require any payment on work completed until we receive your signature of complete satisfaction.
